

RUDI DWI ATMOJO

DevOps & Fullstack Engineer

Professional Summary

Full Stack & DevOps Engineer with strong experience in **DevOps**, CI/CD automation, **cloud infrastructure**, and scalable application development. Bring a **cross-functional engineering perspective** gained from hands-on experience as a software developer, engineering team lead, and DevOps engineer, enabling effective collaboration across product, engineering, and operations.

Integrate AI into daily engineering workflows to increase productivity, using **Claude** for full-stack development, DevOps, infrastructure automation, and technical documentation, and **ChatGPT** for brainstorming, solution design, and technical research.

Proficient in AWS, Google Cloud, OpenShift, Terraform, Docker, Kubernetes, Vault, Git, Jenkins, SonarQube, Nexus, and end-to-end CI/CD automation, with solid full-stack development experience using Next.js, Angular, Node.js, Java (Spring Boot), GraphQL, and MongoDB.

SKILLS

- ◆ Cloud Platforms: Google Cloud Platform (GCP), Red Hat Openshift, Kubernetes, Docker.
- ◆ DevOps Tools: Jenkins, GitLab, Nexus Repository, SonarQube, ELK, Vault by HashiCorp.
- ◆ Programming: React/Next, Java (Spring Boot), Node.js, Angular 4/6, Shell Scripting
- ◆ Databases: SQL, MongoDB
- ◆ Project Management: Scrum Master.

EXPERIENCE

IT Consultant (Full Remote) PT Hama Smart Solution

May 2025 - Present

- ◆ IT Consultant for Japanese client **Portament**, working as a Full Stack Developer with Next.js and as a DevOps Engineer on AWS Cloud. Experienced in daily AI-assisted development and automation to improve speed and efficiency.

Lead DevOps Engineer PT Bank BRI Tbk

May 2023 - Nov 2024

- ◆ Lead a DevOps team to ensure 99.9% platform availability on GCP and on-premise environments.
- ◆ Implemented system monitoring and alerting using ELK. Securing containers with Google Assured OSS and Vault secret management. Accelerated deployment processes with CI/CD pipelines and automation scripts.

IT DevOps Engineer PT Bank BTPN Tbk

May 2017 - Apr 2023

- ◆ Acted as Scrum Master for a DevOps team adopting Platform as a Service (PaaS).
- ◆ Managed CI/CD processes, successfully delivering over 500 microservices on Red Hat Openshift.
- ◆ Securing container with Vault secret management using envconsul.
- ◆ Developed a full-stack web application using Angular 4 and Spring Boot, enabling streamlined CI/CD management.

IT Developer PT Ace Global Consulting & Integration

Oct 2013 - Apr 2017

- ◆ Developed full-stack mobile applications (Android Webkit) for operational monitoring.
- ◆ Lead a team in creating web applications for retail and promotion systems.
- ◆ Delivered applications as a technical leader, managing team workflows and project timelines.
